Create Tournaments

Before starting the definition of a tournament it must be ensured that all teams which should participate are created in the teams tab.

Tab Basic Data

The screenshot shows a 'New Tournament' window with three tabs: 'Base Data', 'Teams', and 'Schedule'. The 'Base Data' tab is active. It contains a section 'Select Teams to Group:' with a list of teams on the left and a table of grouped teams on the right. The teams list includes 'Binzgen', 'Gast', and 'Heim'. The table has two columns: 'Grouped Teams' and 'Tournament Groups'. The table contains the following data:

Grouped Teams	Tournament Groups
Hochsal	1A
Laufenburg	1A
Rheinfelden	1A
Waldshut	1A
Wallbach	1B
Wehr	1B
Bad Säckingen	1B
Basel	1B

At the bottom of the dialog are 'Back' and 'Next' buttons.

Back Finalize

In this tab the match schedule is displayed. Based on the definitions in the tournament system this step is fully automated. Here you can see the advantage of pre-defining tournament systems. Based on the time information from the first tab, you can see the time schedule. An estimation for the needed time for the whole tournament can directly be seen.

Right side buttons:

- Select all matches

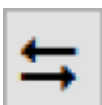

- With help of a dialog it is possible to select row intervals e.g. each second row.

- Unselect all matches

- Move all selected matches one step up

- switch the teams left and right of the selected rows

- Move all selected matches one step down

- Delete all selected matches.

- Re-schedule all selected matches.

- Change the location for each selected matches.

finalize

Tournament is created.
